It is our greatest innovation and system and you have to check it **before** reading the proverbs. Otherwise, you will not find any logical connections in this material below.

If you have read about eight innate groups and compared their innate preferences and needs, you will understand the inner logical differences of such people. Now it is time to talk about temperament and how it differs.

N°2. Temperament

You probably know something about temperaments of Hippocrates and Galen. If you want to read our own description of temperaments, before reading the proverbs and sayings, please check this link.

"It is good when you make this world a bit idyllic"

for Sanguine

"Being moderately hot-tempered is good"

for choleric

"Being a fair judge everywhere is good"

for melancholic

"Being moderately unresponsive person is good"

for Phlegmatic

As you can see all human temperaments have different opinions and vision. They see this world and problems not in the same way. And, as a fact, they differently react to those problems.

Nº3. Innate Category

Before the discovery of eight innate groups, the authors of Worldtypology.com have discovered that all people have innate stable categories and these categories make them different in life goals and in ways of living. You can read more about it here.

"Everything you dream about is good. But now it's time to read the laws"

About PATRIOTs (collectivists)

“It is good to demonstrate everything to other people. But it is time to develop the habit of responding instantly to any human call”

for peaceful and recluse (individualists)

The categories are one of the most important stable things (phenomena) that influence our relationship and how does our world look like. Now it’s time to talk about people who like to destroy or build.

Nº4. Do you like to destroy or build this world?

These are phenomena we have found in theory and it has a long and detailed repetitive factual records and proofs in human history. Some people like to build, while to others would like to destroy everything. Read about it here.

“Everything you plan is good. But it is time to realize if you really need it”

about people who destroy

“Everything you do is good. But it is time to realize if your creations may be harmful in the future in someone’s bad hands”

about people who build

By the way, these qualities are also innate and stable, because they are repetitive. That is why we cannot change people from inside. And that is why we have lots of really negative things in nature too.

Nº5. Additional Traits

These traits can be also repetitive, that is why we are talking about them here. Here is the list:

“A wish to see that nothing will change. It is only left to see that there is no changes if there is changes”

for Pessimist

"An automatic belief in a positive outcome. It is only left to realize that it is good to believe in that and it works"

for optimist

"Being a humane is good. It is left to realize how to prove it"

for HUmanist

"A desire to make bad things to someone who offended you is good. It is only left to change your desire with something useful for you and do it instead of your desire"

for offended

"Being foresighted is good. It is only left to realize that you didn't miss the other players in this game"

for a strategist

"Being persistent is good. It is only left to realize who you have to be persistent with"

for a Tactician

"Seeing the real things and phenomena without any fear is good. But now everything is left to to live your calm and peaceful life with knowing about such real things"

For the realists
